a. Overall percentage _____ and letter Grade _____

b. Test percentage _____

c. Homework percentage _____

d. Quiz percentage _____

2. Current number of of absences and tardies so far this Quarter _____ : _____
absences tardies

Student comments regarding effort and progress (optional):

Parent/Guardian:

Please review this completed document with your son or daughter and verify the validity of the responses to the best of your ability. See grades in progress in emails sent home. Contact me at **kphillipsmva@mac.com** if you have questions.

Some of the most important things a parent/guardian can do to encourage the success of their son or daughter is to provide a home environment that is conducive to quiet focused homework time, provide healthy and consistent meals, and ensure that your student is getting at least 8 hours of sleep every night.

A student's grade in this class is determined by his or her performance on homework, chapter tests, quizzes, participation and the final exam. The breadth of items represented on this matrix sheet make the grading process appear more complicated. The additional complications arise from policies established to help students establish habits that will benefit them for their entire academic career as well as later in life.
